

Thank you for wanting to love your neighbor! We think that you will be blessed in the process as well. We encourage you to start praying specifically about who and how God will use you to bless others as you go about your day.

The printable accompanying this letter has suggestions to think through in creating something to give to someone near you experiencing homelessness. Feel free to do something simple or as elaborate as will work for you. Simply having new socks in your glove box easily available to share with someone through a car window would be a great place to start! We hope you take the opportunity to include a handwritten note with whatever you give, we've included some wording below if it is helpful for you.

We pray this is a wonderful experience for you and for the person you bless with a small gift, if you feel like sharing your experience with us we would love to hear from you.

Blessings,
The Faith Radio Team

I've prayed about who to give this gift to
and God led me to you! My only intention is to
bless you and share that God loves you.

I will continue to pray for you.
